
Model TT-0915 Tabletop Cleaner

The Most Powerful Tabletop Ultrasonic Cleaner Available

Blue Wave Ultrasonics' Model TT-0915 is a compact, stainless steel tabletop cleaner that delivers the power and reliability you'd expect from a more expensive industrial model. Utilizing exclusive magnetostrictive ultrasonic transducers and a heavy gauge, polished stainless steel housing, the TT-0915 offers outstanding performance and value when compared to cheap disposable piezoelectric units. Use of durable stainless steel materials and analog controls provide for minimal maintenance and years of trouble-free service.

The Model TT-0915 Tabletop cleaner uses Blue Wave's environmentally safe, water-based cleaning formulations to remove soils from a wide variety of metal, plastic, ceramic or glass parts -- without the use of solvents or harmful chemicals.

Consider These Key Features And Benefits Of Blue Wave's TT-0915 Tabletop Cleaner:

- 30 minute timer for accurate cycle times
- Drain valve makes draining and refilling quick and easy
- Stainless steel cabinet, parts basket (optional) and lid (optional) holds up to virtually any environment
- Lifetime guaranteed magnetostrictive transducers
- Industrial design/durability
- Ultra-quiet 30 kHz Sweep Frequency generator provides effective cavitation with no standing waves or hot spots

Technical Specifications

Specification are subject to change without notice.

Model No.	TT-0915
Overall dimensions	18"W x 11.5"L x 10.5"H
Cleaning chamber dimensions	15.5" x 9" x 6" Deep
Tank material	20 Ga. 304 SS
Exterior material	20 Ga. 304 SS; 2B finish
Standard electrical	120V, 1 Phase; 60Hz, 4.5A
Ultrasonic power	500 Watts
Options	Heat-250 Watts / Lift-off lid / SS basket

You're Protected with our Unconditional Lifetime Guarantee

The Model TT-0915 is covered by the exclusive Blue Wave Unconditional Lifetime Guarantee on the magnetostrictive transducer and diaphragm, the heart and soul of any ultrasonic cleaner. Only Blue Wave Ultrasonics offers this unparalleled warranty that ensures you are getting the most reliable ultrasonic cleaning equipment available. The Blue Wave magnetostrictive transducer is guaranteed for a lifetime against:

- **Transducer Failure**
- **Transducer Deterioration**
- **Transducer Diaphragm Wear-Through**
- **Transducer Diaphragm Bond Failure**

Chemistries to Clean Your Parts

An essential component in any cleaning process is the use of the most effective cleaning solution. Blue Wave offers the latest in water-based cleaning formulations that are environmentally safe and that create no disposal problems. Blue Wave concentrates are carefully engineered to maximize the performance of any ultrasonic cleaning equipment. The 25-I liquid solution in a dilution of one to four ounces per gallon of water will:

- **Provide superior wetting action**
- **Remove the most persistent soils**
- **Disperse insoluble oils**
- **Emulsify greasy oils**
- **Rinse freely**

Blue Wave solutions are 100% environmentally safe. Tested by an independent laboratory, in accordance with the Federal Hazardous Substance Act, 25-I was shown to exhibit no toxic or corrosion characteristics. Custom chemicals are also available for the most demanding applications.

We Would Like to Hear From You

Blue Wave Ultrasonics cleaning equipment combines uncompromising quality with state-of-the-art technology, and backed by an Unconditional Lifetime Guarantee against transducer failure. When clean isn't clean enough, look to Blue Wave Ultrasonics to provide shorter cleaning cycles, more positive cleaning, lower energy consumption and remarkable reliability.
